Dennis: Keith asked if I could put together a recommended seed mix, and here it is with a less expensive alternative. Please note that these are *recommended* mixes and not required. Some of the species in the first mix could be quite expensive, so I included the alternative. Please seriously consider adding at least a little penstemon.

Paul Baker

Seed Mix Recommendation for Stone Quarries near Torrey

Species	Pounds pure live seed/acre
Crested Wheatgrass (var. Hycrest)	2
Russian Wild Rye	2
Indian Ricegrass	3
Sand Dropseed	0.1
